## **Merck List Price Adjustment**

Thank you for your support and understanding as we work through unprecedented demand and circumstances. We are thankful for the partnership towards the development of Covid-19 related and critical life-saving treatments.

Merck Ltd. Korea is the most reliable provider in the Life Sciences market, delivering more than 300,000 innovative products and services. We continue to invest in R&D, high-quality materials, facilities, documents and systems to provide quality services.

As the Covid-19 pandemic continues to impact the world, it is also causing immense pressure on the global supply chain. The cost of raw materials from our suppliers and logistics costs have risen dramatically as a result. We have been absorbing the increase in costs but with the constant rise in container shipping rates and raw materials costs, we have to inevitably make adjustments to our pricing.

- Effective date: May 1, 2022
- Products subject to price increase:  
All reagents, equipment and raw materials(including products of Sigma-Aldrich®, Roche® and Avanti®)  
\*Some products exempt

Adjusted prices can be verified on the Merck e-commerce site ([www.sigmaaldrich.com](http://www.sigmaaldrich.com) / [www.merckmillipore.com](http://www.merckmillipore.com)) from May 1, 2022. Adjusted items related to the transaction can be found in the quotation, order confirmation, and transaction statement.

Pre-adjustment prices will apply to April price quotation estimates for up to a period of 30 days.

For inquiries on price adjustment, please contact customer service center (02-2185-1700 / 02-2185-3840).

Best Regards,

Merck Ltd. Korea  
Life Science, Science and Lab Solutions Business
